# The Benefits Of Azure Cloud Services

## Azure Cloud Services

The worldwide public cloud market is projected to hit the \$411 billion mark in 2020.

Microsoft's Azure cloud storage platform has been named to Gartner's coveted Magic Quadrant for Cloud Infrastructure as a Service Worldwide.

Microsoft is been recognized by Gartner for :

- Software-as-a-Service Solutions (SaaS)
- Infrastructure-as-a-Service Solutions (IaaS)
- Platform-as-a-Service Solutions (PaaS)

# The Benefits Of Azure Cloud Services

---

According to CIO Insight, 90% of all enterprise organizations have adopted at least some form of cloud technology, with many choosing to migrate and store data in the public, private, or hybrid cloud.

- Web
- Mobile
- Testing
- Storage
- Backup Recovery
- Big Data Analytics

**Azure is always up-to-date, minimizing potential exploits.**

# The Benefits Of Azure Cloud Services

Security teams devoted exclusively to detecting network and data encroachments

Only pay for what you need

Know where your data is stored

"Microsoft Azure has recently proven to be one of the strongest players in the cloud industry."  
-Techopedia

Azure cloud services has been named to Gartner's Magic Quadrant for Public Cloud Storage Services for the last two years.
